ZEPPELINS

Brought Down by Airplanes When Raid Is Made Over England

CREWS OF TWO PERISH

Both Air Monsters Dropped Into Sea In Flames, One of Them Being Destroyed Nine Miles at Sea—Damage Is Said to Be Slight—Many Bombs Dropped In Latest Aerial Effort

(Associated Press Telegram)
London, Nov. 28.—Two Zeppelins were brought down in Monday night's raid on the northeast coast of England. The crews of both airships perished.

One woman was killed and 16 persons were injured in the raid. The airships dropped 100 bombs.

The destruction of the airships was announced in an official communication issued by the war office.

Both Zeppelins were brought down in flames into the sea after being attacked by airplanes. One of them was destroyed while nine miles out at sea on her return trip.

The war office announced that although full reports of the damage and casualties inflicted by the Zeppelins had not been received this morning they were believed to have been slight.

The official account of the raid was issued this morning.

"A number of hostile airships approached the northeast coast of England between 10 and 11 o'clock last night. Bombs were dropped at various places in Yorkshire and Durham. The damage is believed to be slight.

"One airship, attacked by airplanes of the royal flying corps was brought down in flames into the sea off the coast of Durham. Another airship crossed in the North Midland counties and dropped bombs at various places. On her return journey she was repeatedly attacked by airplanes of the royal flying corps and guns. She appears to have been damaged, for the last part of the journey was made at very slow speed. She was unable to reach the coast before day was breaking. Near the Norfolk coast she apparently succeeded in effecting repairs and was proceeding east at high speed and at an altitude of over 8,000 feet when she was attacked nine miles at sea by four machines of the royal naval air service and an armed trawler and was brought down in flames at 6:45 a. m.

"Full reports of the casualties and damage have not yet been received but they are believed to be slight." Reports from the north of England indicate that the latest raid by German airships was futile so far as the infliction of any damage was concerned. The military authorities in a number of towns gave warning of the approach of the raiders and all lights were promptly put out. In some places it was reported that the engines of the airships were heard overhead but no bombs were dropped. It is said most of the bombs released by the raiders fell into fields in the rural districts.

The destruction of two Zeppelins in Monday night's raid on the northeast coast of England makes a total of five of the giant dirigibles which have been destroyed in the three latest attacks by German airmen on British towns. On Sept. 3, a squadron of Zeppelins raided the eastern coast of England with London. According to the British official statement their apparent objective. One of the airships was brought down in flames close to London. On September 23, twelve Zeppelins again attempted to reach London and the British air force shot down one of them. On November 18 Petrograd reported that Russian troops near Pinsk on the eastern battle line brought down a large Zeppelin and captured the crew of 16.

The first Zeppelin to meet with disaster in the English raids was the L-15 which was forced down in an attack on London on March 31 and captured in the Thames estuary. The airship sank while in tow of a British patrol boat. Prior to this, on January 31, the L-19 was seen in the North sea in a sinking condition after a raid on England and is believed to have been damaged by the English coast batteries. After one of the early raids on England, on February 18, 1915, the Zeppelin L-3 was lost in a snow storm and forced to land in Denmark where she was burned by her crew, fourteen of whom were interned by the Danish authorities.

TEUTONS ONLY 40 MILES FROM THE CAPITAL

(Associated Press Telegram)
Berlin, Nov. 28.—(Via wireless to Sayville.)—The Austro-German forces in western Rumania are continuing with success their drive toward Bucharest, the war office announced. New operations have been begun and additional ground has been gained by the invaders. The Bulgarians have captured the important Danube town of Giurgiu on the railroad south of Bucharest. The Rumanian town of Curtea de Arges, south of Campulung has been captured.

The forces invading western Rumania are now within less than forty miles of Bucharest. The town of Giurgiu, across the Danube from the Bulgarian fortress of Rusechuk, is 37 miles south of the Rumanian capital. It has considerable importance from a military standpoint owing not only to its position with respect to Bucharest but to the fact that it is connected by railway with the capital.

The attack on Bucharest from the north also is developing rapidly. The town of Curtea de Arges is eighty miles northwest of the city. It is 20 miles southwest of Campulung in the vicinity of which there has been heavy fighting for several weeks. An uneventful period along the Franco-Belgian front is reported by German army headquarters in today's official statement. The text is as follows: "Western front—there have been no military operations of a major character."

An increase in the intensity of the fire of the Russian guns in the region southwest of Dvinsk on the eastern front, is reported in today's official statement. Inactivity prevailed on the remainder of the line in Russia and Galicia, according to the army headquarters report.

Police Judge Silbert continued the suspects case until Dec. 1 and fixed bail at \$3,000.

The commission recently ruled that it had no right to fix such a rate. Groom will ask the supreme court to decide the question.

CAPTURE

Of Chihuahua by the Villa Forces Followed by Advance Towards Border

JUAREZ IS THREATENED

Carranza's Commander Prepares to Defend That City Against Attack By Bandits—General Trevino Orders Precautionary Measures Taken—Evacuation Not Officially Confirmed

(Associated Press Telegram)
El Paso, Nov. 28.—Francisco Villa's bandit army after its reported capture of Chihuahua is proceeding northward, according to meagre information obtainable here today. Carranza military officers at Juarez would not confirm the report that Villa had taken the city, but said they were advised Villa's forces were moving toward the border and steps were being taken to defend Juarez against a possible bandit attack. This action was in accordance with orders said to have been received last night from Gen. Jacinto Trevino, Carranza artillery commander at Chihuahua.

Gen. Trevino one report stated, was moving southward with his forces to join to reinforcements under General Alvarado, reported marching toward the state capital.

Direct word from Chihuahua City last night told of fighting Sunday between de facto forces and Villa bandits within the city and stated that the Villa forces were withdrawing to the north. The message added that General Trevino's troops were then celebrating the defeat of the bandits and their repair trains had been sent out to restore communication with Juarez. Early today telegraph lines were working only as far south as Sauz, twenty-six miles north of the state capital, from where General Trevino's message was sent last night.

AMMUNITION SCARCE.

(Associated Press Telegram)
El Paso, Nov. 28.—United States government officials here claim to have received positive information regarding the reported evacuation of Chihuahua City by General Jacinto Trevino, the Carranza commander because of a shortage of ammunition. These officials have sent an official report to Washington regarding this report.

REPORT NOT CONFIRMED.

(Associated Press Telegram)
Washington, Nov. 28.—Army officials on the border advised the war department today that they had heard repeated rumors that General Trevino, the Carranza commander at Chihuahua City had evacuated that city before the continued attack of Villa bandits. The war department, however, had no official confirmation and was inclined to doubt it.

SPEED ORDINANCES MAY GET APPROVAL OF SUPREME COURT

(Associated Press Telegram)
Columbus, Nov. 28.—The supreme court of Ohio again upheld the Vondersee conservancy law today when it refused to review the case of Miami county and others against Edward A. Deeds and the Montgomery county conservancy commission, thus removing the last legal obstacle in the way of flood protection plans in the Miami valley.

The supreme court affirmed the judgment of the Hamilton county courts by awarding \$4000 damages to Mary Kinney, 555 Barr street, Cincinnati, in her suit against the Pennsylvania railroad. She was a car washer and received a fractured hip when thrown from a car.

Webb C. Hayes, of Toledo, lost in a fight which he carried to the supreme court to prevent the Hocking Valley railway company from occupying a 400 foot strip of land which was donated to the city of Toledo for park purposes. The supreme court refused to review the case.

By overruling a motion to dismiss the case of the city of Fremont against Charles Keating today the supreme court indicated it will give consideration to the question of the right of municipalities to pass ordinances regulating the rate of speed of automobiles. Many cities over the state are vitally interested in this question. In the Fremont case the lower courts held that ordinances passed by cities, regulating the rate of speed, even if they were the same regulations provided in the state law, were unconstitutional.

Torches Light Streets While Body of Francis Joseph Is Taken at Night to Hofburg

London, Nov. 28.—The body of the late Emperor Francis Joseph was removed at 10 o'clock last night according to the prescribed ceremonial, from the Schoenbrunn palace to the chapel in the Hofburg at Vienna, says the Exchange Telegraph company dispatch transmitted by its Amsterdam correspondent.

Immense crowds which stood in silence with uncovered heads, lined the route and watched the impressive pageant as it passed with torch bearers leading.

Delegates representing all the Austro-Hungarian and Czech legations and a squadron of cavalry in war equipment followed. Then came the state coaches bearing the high functionaries and after them the hearse drawn by the black Arabian chargers draped in black, gold and silver.

At the door of the Hofburg chapel the imperial family, including the new emperor and empress in deep mourning, awaited the arrival of the coffin, which was placed in the center of the chapel where the clergy gave the final blessing.

(Associated Press Telegram)
London, Nov. 28.—Flying at a great height a German airplane this morning passed over London and dropped six bombs on the capital, according to an official statement issued this afternoon. Four persons were injured and only slight material damage, it is added, was caused. Shortly after noon the news spread rapidly through London that a German airplane over the town was dropping bombs. The raider flew at a great height. Crowds gathered quickly at points where the bombs fell. The four injured persons were taken to a hospital. The material damage was very slight, consisting largely of broken windows.

DRIVE

Of Teutonic Forces Towards Bucharest Continues, According to Berlin

TWO VILLAGES CAPTURED

General Von Falkenhayn's Troops Drive Rumanians From Topolog Line While General Von Mackensen Pushes His Advance Lines Within 37 Miles of Rumanian Capital

Two important announcements are made by Berlin today in reporting continued progress of the Teutonic invasion of Rumania, the capture of Giurgiu on the Danube and the taking of Curtea de Arges on the capital. The capture of Giurgiu places Field Marshal von Mackensen's army advancing from the southwest only 37 miles from Bucharest, with a railroad running thence along which the advance may be pressed.

In occupying Curtea de Arges, General von Falkenhayn's troops apparently have driven the Rumanians from the line of the Topolog and may even have broken near its northern end, the line of the Argechu, along which the Rumanians were expected to make a decisive stand.

Thus the semi-circle drawn about Bucharest and the Rumanian armies is gradually but steadily being drawn in closer. Substantial successes are reported by Berlin in the new operations for tightening the grip.

The latest German air raid over England cost the raiders the loss of two zeppelins, according to London's official report today. Both machines were brought down in flames by airplanes, assisted in one case by an armed trawler.

Damage and casualties from the raid, which took place late last night over Yorkshire and Durham and extending into the north Midland counties are believed to be slight, it is declared.

Considerable interest attaches to the reports of artillery activity that continue to come from the Ypres, Arras and Armentieres districts, toward the northern end of the Franco-Belgian front. The Ypres sector, in particular, has been twice mentioned within the last 24 hours in the British reports, last night as the scene of a British bombardment while today heavy German shelling of the line north of Ypres is recorded. Recent reports from Berlin declared that indications were accumulating that an attack by the entente at some new point along the German lines on the western front was in contemplation. Berlin today emphasizes the importance of the German-Bulgarian success in defeating a strong attack by entente forces along a wide front in the Monastir region. Extremely heavy losses are declared to have been suffered by the French, Serbians, Italians and Russians in an assault which netted them nothing.

Another raid by German naval forces near the English north sea coast is announced today. The capture of one vessel is reported. The raid took place near Lowestoft about 75 miles northeast of Ramsgate, on which German destroyers made a raid last week.

Shots From British Ship Hit Vessel of Public Health Service

(Associated Press Telegram)
New Orleans, Nov. 28.—The United States public health ship Neptune arrived here today with two holes through her smoke stack and reported they had been made by shots from the British steamer Scythian, of the Leyland line at the quarantine station down the river last Saturday.

No intimation was given in the report of the affair as to whether the shots were deliberately fired at the Neptune or whether some one aboard the Scythian was at target practice. It was stated however, that the shots were fired after the officer in charge of the quarantine station had refused permission to some one on the steamer to shoot the rifle.

SHOOTING ACCIDENTAL

(Associated Press Telegram)
Washington, Nov. 28.—Reports to the public health service say the shots on the steamer Neptune fired from the British steamer Scythian undoubtedly were accidental and indicated that they were fired at some object in the river.

(Associated Press Telegram)

FEAR OF CATTLE PLAGUE

Pending Result of Inoculation Tests Will Not Be Known For Several Days and Embargo On Stock Except For Immediate Slaughter Continued Until Danger is Past

(Associated Press Telegram)
Chicago, Nov. 28.—Facing the possibility of a renewed outbreak of the hoof and mouth disease, livestock men here awaited with some anxiety today the outcome of the federal diagnosis of suspected herds in Missouri, Kansas and Nebraska. Dr. S. E. Bennett, head of the bureau of animal industry in Chicago, with Dr. F. C. Day, federal veterinarian and Dr. F. S. Mather, an expert in stock plagues, left here last night to investigate suspected cattle in the Kansas City yards today. Results of the inoculation tests, however, will not be known for several days and it is expected that the Kansas City quarantine will remain effective until then.

Meanwhile authorities here announced that the precautionary measure taken by Dr. O. D. Dyson, state veterinarian of Illinois, prohibiting the shipment to the stock yards of Chicago and East St. Louis, except for immediate slaughter, of any cattle, swine or sheep from Kansas, Missouri, and Nebraska, will not be rescinded until all possible danger of infection is believed past. Officials of the Chicago Union Stock Yards and Transit company asserted also that their embargo order against livestock from all points west of the Missouri river will be effective as long as it seems necessary as a precautionary measure.

Granville

(Special to Advocate.)
Granville, O., Nov. 28.—So great was the wealth of interesting and instructive facts presented in the "Travelers' program Monday afternoon, concerning the Argentine republic, that not even a special edition of the Advocate would suffice to reproduce it, and yet so fascinating was the manner of treatment that the correspondent feels bound to ship in a few observations when the lynx-eyed editor is looking the other way. Mrs. Anna Campbell is conducting "Current Events" featuring only South American affairs of the day, thus giving a pleasing variety to the program. Mrs. Karl Eschman was particularly happy in her treatment of a great subject "The Capital and Her Rival Ports," giving to Buenos Aires the palm among all American cities, citing an authority which pronounces it "one of the wonders of the American world." No city in the United States is its equal in completeness and it appeals to the traveler exactly as does a continental city at the first moment of arrival. It is not the indolent city of the tropics but a place of enterprises and ambitions and though restrained by the Latin love of leisure, nowhere in the world does one find greater evidence of industry. Miss Elizabeth Ewart gave an admirably balanced recital of "Governmental Conditions" both in the Argentine and in Chile, which impressed one with the wisdom and foresight of these people—and which at its conclusion brought forth the comment from one in the audience: "I fear they have the United States beaten." Their immigration laws in Argentina seem far superior to ours, and the immigrant is forced to mold himself into a citizen of Argentina; there are no "hyphenated citizens" in that country. The new president, Dr. Hipolito Chigoyen elected for a six-year term, has promised his salary of \$31,000 per year to public charities. \$186,000 is something of a gift. Chile is really more of an oligarchy than a republic, which Miss Ewart treated with impartial completeness. Individual members of the club will accept the invitation of the fellowship dinner to be held in Newark on Monday evening, December 4 by the Federated clubs. Toward the close of her description of Buenos Aires yesterday afternoon, Mrs. Eschman referred to the love of sport evinced by the dwellers in that beautiful city and the difficulty the Jockey Club is having in disposing of a surplus of fourteen million in some useful and lasting enterprise. This surplus being the club's ten per cent share in all the money bet on the race course. She suggested that the "Travelers" send a few suggestions as to its expenditure. The Granville correspondent of The Advocate, along with the other citizens of the village who appreciate the initiative and efficiency of Mayor Coons, was reminded by means of Monday's Advocate to throw a small "verbal bouquet" across the footlights in recognition of Sunday's exploit at the Alexandria fire. However, an earthquake shock must have registered on the linotype jarring a whole line out of commission and leaving the modest bouquet in ruins. What was meant was that "Mayor Coons has proved himself a man of prompt and decisive action who can always be depended upon in a crisis," a statement which is under rather than over the facts in the case. Mrs. H. C. Van Kirk, county president of the W. C. T. U. has returned from Indianapolis where she attended the National W. C. T. U. convention as a delegate last week. She was one of the speakers at one of the churches and returns with fresh zeal and enthusiasm from this splendid assemblage of moral forces. She said that the crowds who greeted W. J. Bryan in the great Mural theater were less in number than the crowds turned away from the doors for lack even of standing room; she said that his speech was a marvel of oratory and that he was given an ovation; that he and ex-Governor Hanley are making a whirlwind campaign for prohibition. ASTOUNDING CURES MADE BY THIS REMARKABLE NEW DISCOVERY.

Gentlemen: For over fifteen years I was afflicted with eczema, covering my arms, legs and face. I suffered so much distress that I could not sleep. My skin was red and swollen and covered with dry, feverish scales. I was unable to attend to business for weeks at a time. I had about given up all hope when I tried your remedy, Amolex. The first application gave me relief so I could sleep. After applying it for several days I was able to attend to business. After 21 days' treatment my eczema entirely disappeared.

He was indentured to a farmer residing near Appleton, this county, and had a good home, but the boy was of a roving disposition and became incorrigible and he was returned to the institution where he will have to remain until he is 18 years of age.

Such Language.
I asked an Italian who speaks correct English which language his children learned to write more readily, Italian or English.
"Italian," said he. "Your English words don't sound the way they look."
To show what this poor man had in mind I shall quote some suggestions given to me by one of the most famous scholars, philosophers and professional men in America. They show what a curlicue language English is:

If daughter equals dawter and slaughter equals slawter, why does not laughter equal lawter?
Put it vice versa, and if laughter is lafter, why is not daughter dafter and slaughter slawter?
Enough is enuff, but cough is not cuff. However, if cough is cawf shouldn't enough be cawf?
Plough is pronounced plow, and bough is bow, but cough is not cow.
Moreover, a little Italian, knowing that cough is pronounced coff, is liable to spell the cup of morning beverage cough-plee.—Philadelphia Ledger.

AUTO HITS BUGGY
THREE THROWN OUT
BUT NOT INJURED.

Leonard E. Smith, gardener, and two sons Leonard Jr., and Lawrence, of 603 North Fourth street, last night narrowly escaped serious injury, when their buggy was struck by an automobile at Locust and North Fourth streets.

All the occupants of the buggy were thrown into the street, but fortunately suffered nothing more serious than a few bruises. According to Mr. Smith, the machine was driven by an insurance man named Hill of Columbus, who becoming blinded by the lights of another auto, failed to see the buggy. His machine was not running over eight miles an hour, Mr. Smith said, when the collision occurred.

The buggy was badly damaged. This morning the men met and the damages for the carriage settled for by Mr. Hill.

STATE G. O. P. WILL
WATCH DEMOCRATS
NEXT TWO YEARS.

Columbus, Nov. 28.—It was said to be a foregone conclusion that the Republican state central and executive committees which are meeting here in executive session this afternoon would authorize permanent headquarters to be maintained in Columbus during the next two years to "watch the democratic administration" and keep up an organization for the campaign two years hence.

The question as to whether Governor Willis should call a special session of the legislature before he leaves office to probe the high cost of living and incidentally secure senate confirmation of the governor's appointees, was being discussed by committeemen, also the possibility of a recount.

This change was decided upon so the President will have his mornings on those days free for other engagements.

Why shop early? Ask any clerk.
That man who predicts \$20.00 boots must have extreme views about the brevity of skirts.

Did you know—a quart and a half of milk has as much food value as a pound of steak.

China is in the market for a \$5,000,000 loan. We move that the bankers let her have it.

Berlin modestly admits that the Russians have lost over two million men since June the first.

We observed that no newspaper published extras when Mr. Hughes congratulated Mr. Wilson.

About now the politician promotes spontaneous uprisings of the people to urge him to take a place in the cabinet.

Many people's sorrow for the horrors of war is considerably mitigated by good fat orders for supplies for the soldiers.

If the price of food goes up much higher America may yet outdo the warring nations by proclaiming a weekly fast day.

The man who went to the cities to seek his fortune usually hasn't enough money left for fare back to the country where could find it.

New Bedford asks the attention of the state to the fact that it was our only cotton mill city to go for Hughes.—Springfield Republican.

Justice Hughes' congratulatory message to the President was a bit tardy but so far as the world knows, Colonel Roosevelt hasn't sent his vet.

After hustling in vain to get more than his share of money, a good many men reach the conclusion that the money ought all to be divided up evenly.

Prices will no doubt be reduced by better crops next summer, unless the farmer tries too many of these experiments that the city editors are urging on him.

More threats of a railroad strike are heard, but of course the public has nothing to say about the wages, hours and dividends on the railroads that public generosity made possible.

Salesladies, salespersons, clerks? Which do you prefer? Clerks for us. The word "saleslady" makes one wary and "salesperson" is abominable. What's the matter with "clerk"? Nothing whatever.

It seems strange to many men that a little girl like Ruth Law wants to come out and carry off the aviation records, when it is the duty of women to remain quietly at home and sweep floors and bake bread.

In these days of cold storage, the fact that a turkey gobbler is now running around the yard for the last time, does not mean that he will make his appearance on the Thanksgiving Day table before about November, 1918.

Reports are conflicting. Some have it that Colonel Roosevelt is about to go to the Fiji Islands and others that he intends to stay right here. It really doesn't matter which is correct. Nineteen-twenty is four years in the future.

Dispatches from the Mexican border say that Villa is moving northward from Chihuahua City and that his forces control that city which has been abandoned by General Trevino. Does this mean that Villa is planning another attack on the border?

Some people never did like Thanksgiving because they set it mixed with charity because it has the giving on the end. To be sure a real spirit of Thanksgiving may lead to the other but there is a world of difference.

1794—Baron von Steuben, German ally of the patriots in the American Revolution, died; born 1730.

ASTRONOMICAL EVENTS.
Planets conspicuous, Venus, Saturn, Jupiter; dim or invisible, Mercury, Mars, Neptune, Uranus.

Mexico as independent, as possible of foreign help, especially in such help carries any right or power to speak as to the conduct of Mexico's internal affairs.

Mexico evidently fears us as "Greeks bearing gifts." We understand that not once have the Mexican commissioners signified that they would entertain or welcome proposals of assistance by the United States such as helping Carranza to catch Villa, opening the mines, stamping out fever, settling the controversy between church and state, and establishing a system of popular education.

Why not, then, wash our hands of the whole affair, leave Carranza "to stew in his own juice," and withdraw the American troops across the border? This would at least save the tottering de facto government, which is the only one in sight that has the confidence of any considerable part of the Mexican people.

The difficulty with this solution is that it does not solve. Our 1500-odd miles of border cannot be effectively patrolled with our present forces, and if another Columbus raid should take place intervention would inevitably follow. And intervention means an occupation of Mexico of two to five years, a large army of invasion, an expenditure of \$1,000,000 a day, and an untold loss of both American and Mexican life. Intervention moreover, would destroy our influence and prestige in Latin America for a generation at least.

This is the problem that confronts the American commissioners. If they solve it a new era of peace and prosperity will dawn in Mexico. If they fail and are obliged to recommend intervention the American people may rest assured that no other course is possible.

President and Peace.
(Chicago Herald.)
Now that the added prestige of a re-election has come to President Wilson, divers friends of peace are trying to force his hand—to get him to throw that prestige to the winds in a futile effort to bring the European war to an end at this time.

The president, of course, will do nothing of the kind. He knows the European situation too well. He knows that a premature effort to bring peace will only irritate the allies, who are immutably resolved, for the present, on war. In their eyes it would put him in the position of using the power and influence of a great neutral nation to enable one of the belligerents to retain its unjust spoils of war and to induce the other side to agree to concessions humiliating to national pride.

He also knows there are various kinds of friends of peace in this country. The propaganda is not dead among us. There are those who want him to try to bring peace because they feel it will help the world and there are those who want him to do it because they feel it will chiefly help Germany and hurt Great Britain and the allies. Unfortunately it is still necessary to demand the credentials of "friends of peace." Friends of the Jeremiah O'Leary type will not let themselves be forgotten, no matter how anxious the country is to forget them.

President Wilson and Secretary Lansing are closely in touch with the international situation. They are in a better position to understand the feelings of the belligerents than their would-be advisers. They are in the best of all positions to realize the folly and futility of premature proposals. Such a proceeding would not only expose this country to a possible snub; it would also impair, if not wholly destroy, its usefulness as an intermediary later, when both sides will be in a less intransigent frame of mind.

The country can rest assured that President Wilson is eager to see and seize the favorable opportunity for actually accomplishing results. He needs neither persuasion nor encouragement. But as the steward of the prestige and influence of this nation in international affairs, he will decline to dissipate them in wild goose undertakings. Rightly used, they may yet prove a blessing to the world. Precipitately employed, they would work their own destruction and even increase our own international difficulties.

Grave and Gay.

Two institutions that still retain the stripes: Zebras and barber poles. The way of the transgressor is strewn with punctured alibis.

Many of us stand today as living indictments of a system that neglects the boy and tries to save the man. On the stage of life there are many supernumeraries.

Is the man who wears a high silk hat less liable to butt in than the fellow who wears a soft one?

Lots of people couldn't make both ends meet if it wasn't for the fact that a fool and his money are soon parted.

When we are advised to look out for a man's business methods, we generally think they ought to be looked into.

The Soldier's Grave.

Wherever I have been in the war zone I have been struck by the touching and tender care which is given to the graves of the soldiers. The wayside grave has almost invariably a flower on it; whatever the stress, the war graveyard is kept neat and filled with little tokens that the fallen comrade is not forgotten. The French have a very delicate sense of the value of these memorials; and after the war the country will be full of regimental and civic monuments, with stirring inscriptions, for the reminder of those who came after.—Westminster Gazette.

Have a Clear Complexion and Clean Skin

There is one sure, safe way to avoid a blotchy, pimply skin. A good or bad complexion comes from within. If you want a clear complexion, a clean skin—rosy cheeks and good health, your blood must be pure and the poisonous matter must be carried off.

Dr. Edwards' Olive Tablets assist nature to remove all poisonous waste matter in the system. They act on the liver and bowels like calomel yet have no dangerous after-effects. They are reliable—safe and cannot harm—are used by women folk everywhere.

Constipation is nearly always the cause of all ailments of women. The intestines must be made to do their work as nature intended—in a normal way.

Have color in your cheeks. Take one or two tablets daily and note the pleasing results. All druggists—10c and 25c.

Chapped Hands and Lips.

What is more unattractive than cracked, bleeding lips or red, rough hands. And as they are both so unattractive, painful and wholly unnecessary we cannot help wonder why folks have them.

As a rule chapped hands and cracked lips are the result of neglect and carelessness. A few moments spent before retiring each night, rubbing them with some soft cream will keep them soft and natural in shape and color even in the coldest weather.

Chapped lips seem to be a chronic disorder. One scale of cuticle peeling off to be replaced by another dry, hard piece, the victim of the disorder becomes accustomed to it and ceases to notice it. Cracks upon the lips are deep and sore, bleeding slightly nearly every day. Cracks upon the hands seem to appear without any apparent cause, a fissure opening in the skin crosswise of the muscle, gapes open remaining this way for some time after closing, leaving a rough, red painful ridge.

The cause of such troubles is not far to seek when it is seen that chapped and cracked lips nearly always manifest themselves after a period of intense cold when care has not been taken to keep the lips dry while out of doors. Moisture gathering upon the veil, a careless habit of touching the lips with the tongue will almost immediately produce chapped lips.

For both hands and lips an old-fashioned remedy liked very much by our grandmothers was nothing more or less than mutton suet. A small piece procured from the butchers, cut fine, melted up and slowly poured into a tiny cup. When it has hardened the cake is taken out from the cup and kept in a convenient jar upon the dressing table.

PENNSY RAILWAY ISSUES CALENDAR URGING "SAFETY FIRST."

As part of a campaign to teach children the dangers of taking "short cuts" over railroads, playing on the tracks or using railroad rights of way, bridges and trestles as highways, the Pennsylvania Railroad System has issued an illustrated calendar especially designed to appeal to young folks. The calendar is intended particularly for use in school rooms and will be supplied for that purpose throughout the cities, towns and country districts served by the Pennsylvania Lines, both East and West of Pittsburgh.

A picture at the top of the calendar shows a typical crowd of children, just out of school, hurrying across the tracks near the school yard.

They are taking the "dangerous short cut," despite warning signs. They could walk to a nearby bridge which would mean safety, but that would require a few more steps. One boy is seen stumbling on the track in front of an approaching train. Another is indulging in the dangerous sport of "balancing on the rails." Beneath the picture is this legend:

"Every year more than 5000 American boys, girls and grown folks who take such risks as these throw their lives away. DON'T BE ONE OF THEM."

Each sheet of the calendar bears a warning suggestion to children.

SOMETHING NEW IN THE WAY OF SPRING AND WINTER HATS

Although winter has just begun, milliners are already considering styles for spring. At the left is seen a spring hat of novel design embroidered with darning cotton. The crown is a spool form made of cotton net and val lace. Two pamosprays are attached to the hat at the apex of the crown and arranged to droop at each side. It is finished with a rope of fuchsia colored velvet held in position with rhinestone slipper ornaments. In the center is seen a winter hat, with blue serge, brocade draped toque. At the right is a Maison Lewis design in black velvet. Trimmings are of fur and silver brocade. Also a winter hat.

Our Boys and Girls

A little boy I know keeps in a drawer a number of pennies, each partitioned off from the other by slips of cardboard. Each penny represents pocket money for one week. At first he spends his penny every week quite contentedly on sweets, but there came a day when he wanted to buy a toy worth three pennies. He found that two different ways were open to him, first to go without the toy and spend the penny as usual; second, to wait three weeks for two accumulated pennies.

Through this experience he finds the advantage and disadvantage of paying cash, or saving up, and of going into debt and all this from his own experience, without any moralizing from his father and mother.

He must learn that money stands as an equivalent for work; that there is a definite limit to its appearance, and part of his allowance at least should be given in return for services rendered.

If the nipple on the nursing bottle collapses take a string and lay it over the top of the bottle then put the nipple over that and you will have no more trouble. The string allows air to pass from the bottle and prevents the nipple from collapsing.

If the milk sours in the bottles wash them clean with cooking soda and then put them in cold water which has a little cooking soda in it.

Put them on the stove and let them come to a boil; they will not break and will be as free from sour milk as when you bought them.

New York City.

Gentlemen:

The Columbia records of my voice made in your laboratory this year, under my exclusive contract with you, are truly wonderful in the fidelity of their reproduction.

In justice to your Company and the American public, I make the statement that the only records that reflect my present ability as a singer and give a true reproduction of my art are the Columbia records recently made.

The records I sang for another company more than five years ago were made when my voice was immature, and are unsatisfactory to me. The Columbia records are the only perfect reproduction of my voice.

Very truly yours,

Thanksgiving Dinner

As you are eating your Thanksgiving dinner you will forget that you ever had a stomach and you eat until you are full up to the neck.

Afterwards when you feel drowsy and your stomach begins to pain, you know that you have eaten too much. Do you know that you are liable to an attack of acute indigestion?

Why not buy a package of VAL DONA or MERITOL DYSPEPSIA TABLETS? They only cost

25 or 50 Cents

Then you can eat all you can. Take two of these dyspepsia tablets and be safe from an attack of acute indigestion, as they will digest any kind of food. If troubled with your stomach or indigestion in any form try these tablets as they are sure to help and most of the time cure.

Investment Information

There is more concentrated, essential information about good 7% investments in the 24 pages of our new "Portfolio of Investment Securities" than in any similar publication that we know about. Some of the 22 securities described have behind them splendid records of prosperous growth.

Steady, uninterrupted incomes, come from securities of real merit that are chosen in the light of long experience and sound information. Just at this time there is much mis-information and irresponsible advice afloat about investments, and it is unwise to buy without first consulting an experienced investment house of good standing.

We want investors everywhere to know about our long experience and our enviable record of service to our customers. For that reason, we have prepared this new "Portfolio" and will be glad to mail it, without expense, on application.

Read Why We Say: "Wear the EDUCATOR SHOE"

Bent Bones That Were Bent by Pointed Shoes

Straight Bones That Grew Straight in Educator Shoes

ALL corns, bunions, ingrowing nails, flat-foot, etc., come from the wearing of narrow, bone-bending shoes. Nature will relieve or free you from all such foot-ills if you wear orthopedically correct Educators.

Therefore we say: Get relief for yourself, and save your children the knowledge of any foot troubles. Do so by putting the whole family into Educators today.

BANKERS WARNED AGAINST FOREIGN TREASURY BILLS

(ASSOCIATED PRESS TELEGRAM)
Washington, Nov. 28.—Bankers today received a warning from the federal reserve board against investing in foreign governments' treasury bills for long terms. A statement issued by the board was interpreted informally by some officials as referring to the recent proposal of J. P. Morgan & Co., British financial representatives, that American bankers make loans on British treasury bills of indefinite total, secured by gold reserves held in Ottawa. These loans would be for ninety days, with privilege of five renewals for ninety day period.

The board also told bankers that further extensive gold imports will be dangerous only if followed by great loan expansion and inflation.

(ASSOCIATED PRESS TELEGRAM)
Washington, Nov. 28.—Alfred P. Thom, counsel for the railway executives advisory committee was on the witness stand again today before the joint congressional committee investigating transportation problems. Committeemen sought to develop further testimony from him regarding his suggestions for solving, through legislation, the railroads' difficulties.

(ASSOCIATED PRESS TELEGRAM)
Wheeling, W. Va., Nov. 28.—Construction work was begun today on a new railroad from this city to Greene county, Pa., which is to be extended later to Connellsville, Pa., to provide a short cut connection between Pennsylvania lines here and those along the Monongahela river. The new line is to be known as the Wheeling Coal Railroad company, a Pennsylvania subsidiary and will tap rich coal fields in the two states.

FRENCH CHAMBER OF DEPUTIES IN SECRET SESSION

(ASSOCIATED PRESS TELEGRAM)
Paris, Nov. 28, via London.—The chamber of deputies meets today in secret session for the second time since the beginning of the war. The first session was held from June 16 to June 22 of this year and ended in a vote of confidence in the government. The senate held a similar session a few days later and concluded its sittings in a similar way.

The session which begins today is certain to be a long one as 41 interpretations are to be put to ministers and almost every question vital to the conduct of the war is to be raised.

A MOTHER'S TROUBLES

A mother's unending work and devotion drains and strains her physical strength and leaves its mark in dimmed eyes and careworn expressions—she ages before her time.

Any mother who is weary and languid should start taking Scott's Emulsion of Norwegian Cod Liver Oil as a strengthening food and bracing tonic to add richness to her blood and build up her nerves before it is too late. Start Scott's Emulsion today—its fame is world-wide, it is free from alcohol.

A Smooth, White Skin That Defies Weather

During the coming months of biting winds and intense cold, you who would keep your skins smooth, white and velvety, should turn your attention to removing every trace of weather-beaten cuticle, the complexion is kept in perfect condition, and even the beauty of expression appears more pronounced. If your skin is blotchy, pimply, freckled, coarse, sallow or over-red, why not shed it? One ounce of ordinary meringue wax, to be had at any drugstore, will completely transform the most unsightly complexion in less than a fortnight. Use the wax nightly, like cold cream, washing it off morning.

If the weather, age or poor health has marred your face with wrinkles, here's good news. You can quickly remove every line by using a harmless, refreshing face lotion prepared by dissolving one ounce of powdered sassafras in a half pint of water. The firmer, smoother skin, the more youthful appearance, even after one application, will astonish you.

METHODISTS GIVE LIBERALLY TO THE MINISTERS FUND.

(ASSOCIATED PRESS TELEGRAM)
Columbus, Nov. 28.—Columbus Methodists have contributed \$45,000 of the \$100,000 already given by Ohio Methodists toward the \$150,000 fund that the church is trying to establish for aged ministers, according to the Rev. W. H. Miller, who is in charge of the local campaign. The goal of the Ohio conference is \$250,000 and Mr. Miller says that the greater part of the state was still unheard from when the \$100,000 total was reported.

GERMANS LOSE NO SLEEP OVER DECLARATION OF WAR BY REBELS.

(ASSOCIATED PRESS TELEGRAM)
London, Nov. 28.—German newspapers regard the declaration of war by the provisional government of Saloniki as negligible, according to an Amsterdam dispatch to Reuters. The dispatch quotes the Koelnische Zeitung as saying:

"This government or rebellion has not yet been recognized by us. It does not exist to us and therefore its declaration of war is nothing to us but a blank paper requiring no reply. Although we need not and shall not take notice of that Venizelos' declaration we cannot disregard it in practice. The so-called army of the provisional government will act against the Bulgarians and us and we shall make prisoners. These prisoners are rebels as long as we disregard the declaration of war and must be treated as such."

The general Anzeiger of Dusseldorf says:

"Venizelos must believe that his so-called government and his franchiseurs will be recognized by Bulgaria or Germany as belligerents."

20,000 MINERS GET WAGE INCREASE IN ALABAMA DISTRICT

Birmingham, Ala., Nov. 28.—Twenty thousand Alabama miners are affected by general wage increases announced today by the Alabama coal operator's association. The advance is not horizontal, the greatest percentage of increase going to the miners who make the greatest wages. The immediate effect is to increase the payrolls about \$50,000 a month. Every operating company in the district participated.

FAT PEOPLE CAN REDUCE WEIGHT

Fat men and women who would like to reduce their weight by 10 or 15 pounds should try a little Korein with their meals and note results. Here is a test worth trying. First weigh yourself and measure yourself. Then take Korein—one capsule with every meal and one before retiring—for a few weeks. Then weigh and measure again. The scales and the tape measure will tell their own story, and many fat men and women we believe can easily take off from five to eight pounds in the first 14 days by following this simple method.

Korein does not of itself reduce flesh, but mixing with the food, it aims to assist the fat-burning elements of the blood to use up and consume the extra fat in all parts of the body.

Korein (commonly known in the pharmaceutical profession as Oil of Korein) is safe, pleasant, efficient and inexpensive. You needn't undergo a strict diet while taking it because Oil of Korein capsules work independent of the digestive tract.

W. A. Erman, Evans Drug Store and other good druggists everywhere are dispensing Oil of Korein in original sealed laboratory packages. It is worth trying.—Advertisement.

Movie Theatres In Cost: Promise to Aid Campaign With Stereopticon Views—Eggs Under Ban.

(ASSOCIATED PRESS TELEGRAM) New York, Nov. 28.—The attack on high food prices, begun here by the Housewives' league and certain city officials, spread today throughout New York state. Encouraged by news of sympathetic efforts in other states, the promoters declared that the movement promised to become nation-wide.

The local campaign centers now upon eggs and, beginning today, recommends a two weeks' boycott. The efforts of the state and city officials were supplemented by Cornelius F. Burns, mayor of Troy and president of the mayors' association of the state.

Mayor Burns announced that he would send letters to the mayors of every city in New York state to President and to the governors of all states requesting the issuance of proclamations urging people to abstain from using eggs for a period of two weeks.

The Housewives' league of St. Paul, Minn., and the Women's Club of Chicago yesterday adopted resolutions declaring for a boycott on eggs.

The Motion Picture Exhibitors association has volunteered the use of every moving picture theatre in the city to carry out the campaign. Slides will be shown telling the people what to do to break up the combination of those held responsible for the high prices.

Official state action under the direction of Governor Whitman was forecast in the announcement that the governor was in conference with George W. Perkins regarding remedies which the state could undertake. Mr. Perkins is chairman of the mayors' committee on food supplies. The governor plans to enlarge the commission of foods and markets through a legislative program now under preparation.

Chicago Political Equality League are centering their efforts on an egg boycott. Members of the former have pledged themselves to refrain from the use of eggs as long as present high prices continue and members of the latter have adopted a resolution to boycott eggs for four weeks and to appoint a committee to investigate the possibility of legislative action.

In addition five measures designed to curb the advancing cost of living were introduced in the city council. Those adopted included one calling on the city health commissioner and the chief of police to enforce the city ordinance prohibiting regreasing of eggs.

EAST MAIN ST. U. B. CHURCH RAISES \$1,028

Sunday, November 26, was a great day for the members and friends of the East Main Street U. B. church. Hon. C. F. Luckhart, an attorney from Fifth Avenue church, Columbus, had charge of the services, giving excellent talks both morning and evening. The lecture of the evening was "Life's Photographs." As the day was to be known as "Cash Day," an effort was made at each service to raise as much as possible of the church debt, which amounted to about \$2,600. All the classes of the Sunday school and the different departments of the church as well as the individual members and friends responded readily, and the amount in cash, and in subscriptions to be paid by Christmas, at the close of the evening was \$1,028. An effort will be made next spring, probably at Easter time, to clear the church entirely of debt and burn the mortgage. The High school orchestra furnished excellent music at the morning service.

GREAT NEED

FOR AGENCY TO LOWER INTEREST RATES ON FARM LOANS IS APPARENT

Federal Board Completes Tour of Country to Learn Where Banks Are Most Needed.

(ASSOCIATED PRESS TELEGRAM) Washington, Nov. 28.—The federal farm loan board, which has just returned from its final tour of the country to determine the best location for the establishment of the twelve federal farm loan banks, today began studying the mass of testimony received during its trip. Announcement of the selection of the 12 federal districts in which the banks are to be located is expected within twenty days.

In its tour the board traveled twenty thousand miles and held fifty hearings in an effort to get first hand information from farmers generally as to their farm loan needs. The board announced today that the testimony indicated that the government's new co-operative banking system, from its installation will have a volume of business that will insure its operation at minimum of cost.

The testimony according to the board emphasized the great demand for an agency to lower and equalize interest rates on farm loans and to provide long time loans repayable in small installments through a long period of years. It also showed the board stated that farmers have been required to pay exorbitant interest and unnecessary commissions, with two short loans, and that since the farm loan law was enacted interest rates in most parts of the country have been reduced to a marked degree to meet the new co-operative competition.

LIKE A BOY AT 50 BUBBLING OVER WITH VITALITY—TAKING IRON DID IT

Doctor says Nuxated Iron is greatest of all strength builders—Often increases the strength and endurance of delicate, nervous folks 200 per cent. in two weeks time.

NEW YORK, N. Y.—Not long ago a man came to me who was nearly eight a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of 20 and as full of vigor, vim and vitality as a young man; in fact a young man he really was not—withstanding his age. The secret he said was taking iron—Nuxated Iron had filled him with renewed life. At 30 he was in bad health; at 40 careworn and nearly all. Now at 80 a miracle of vigor and his face beaming with the buoyancy of youth. As I have said a hundred times over, iron is the greatest of all strength builders. If people would only throw away patent medicines and numerous concoctions, and take simple Nuxated Iron, I am convinced that the lives of thousands of persons might be saved, who now die every year from pneumonia, grippe, consumption, kidney, liver and heart trouble, etc. The real and true cause which started their diseases was nothing more nor less than a weakened condition brought on by lack of iron in the blood. Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it and as it consequently you become weak, pale and sickly looking just like a plant trying to grow in a soil deficient in iron. If you are not strong or well you owe it to yourself to make the following test. See how long you can work or how far you can walk without becoming tired. Next take two boxes of Nuxated Iron, one in the morning and one at night, and after two weeks' treatment you will find that you are stronger and more energetic than you were at first. I have seen dozens of nervous run-down people who were taking all the

WILL ASK COURT TO ADVANCE CASE TESTING NEW LAW

(Associated Press Telegram)
Washington, Nov. 28.—Docketing in the supreme court today by the department of justice of the transcript in the Missouri, Oklahoma and Gulf railroad suit, was the next step in the efforts of the government and railroads to determine the constitutionality of the Adamson act. Solicitor-General Davis, announced that when the court reconvenes Monday he will enter a motion to advance the case, selected for a test, and the department expects early action on the motion.

The transcript was received yesterday from Kansas City, where federal Judge Hook on Nov. 22, held the law unconstitutional. The government took the case to the supreme court, assigning a series of formal errors. Department of Justice officials reiterated today that railroads by agreement would not press similar suits, pending decision in this case.

Amusements

THE AUDITORIUM.
"The Big Review of 1917," the regular Monday American Wheel attraction, pleased two large audiences the house being nearly sold out at both performances. The matinee was the largest Monday afternoon audience of the present season. Manager Fenberg estimating that over 600 women were present. There were also a large number of women present in the evening.

The principals were very clever, especial praise being due Harry "Hickey" Levan, whose comedy kept the audience in good humor at all times. There was a quartette of excellent voices, in fact the best heard at any Wheel show, and the chorus girls wore a diversity of costumes that ought to have satisfied any one. The Yachi Hula dance was a little risqué but it made a big hit. Next Monday night the "High Life Girls" will be the attraction.

"The Wheel of the Law."
Emily Stevens, America's foremost emotional actress, who has been starred for two seasons in "The Unchastened Woman," one of the most successful recent plays on Broadway, will be seen on the screen here in "The Wheel of the Law," a sensational five-part Metro. wonderplay, at the Auditorium theatre today. The story of "The Wheel of the Law" is a powerful document of human life, written by Katherine Kavanaugh. It deals with the fallibility of circumstantial evidence and the danger of depending upon it solely in obtaining a conviction. Many phases of life are depicted in this feature. There is a touch of politics, the life behind the scenes of a Broadway star, together with her home life. A novelty is the introduction of a scene from "La Tosca." This Metro. photoplay will be seen today and tomorrow afternoon in conjunction with the Sixth Episode of "The Crimson Stain Mystery" and "Twas School Days," the picture taken here several weeks ago by The McHenry Film Corp. In this picture the actors and actresses are all local people and at the showing last Saturday the picture pleased greatly. This picture will be seen today, tomorrow afternoon, Friday and Saturday.

"Peg O' My Heart."
Analyzing the story of "Peg O' My Heart," Oliver Morosco's charming play of love and romance, which playgoers will have the pleasure to view here for the second time at the Auditorium on Thanksgiving Day, matinee and night, one is forced to the conclusion that J. Hartley Manners, the author of this gem, because of the simplicity of his theme, has found the key-note of the public's desire to be entertained. The intense interest of his play is in its pointed dialogue and the frank unfolding of his skillfully drawn characters.

Mrs. Chichester, her daughter Ethel and her son Alaric, of unquestioned social position and friends with the aristocracy of England, are dumfounded on a June morning to learn they have been reduced from affluence to direct poverty by a failure of a London bank. They are of the type of snobs to whom loss of wealth means social ostracism.

While her mother and children are talking over their misfortune, comes Peg a poor, forlorn, red-headed, elfin, chit of a girl; her clothes are worse than shabby, she carries a dilapidated telescope suit case, several bundles from whose wrappings more the sleek the contents and a mongrel cur.

Without a word the child enters the handsomely furnished living room, through a French window in time to see Christian Brent a married man, attempt to kiss Ethel during a vehement love scene.

Miss Chichester discovers the intruder, demands why she is there and orders her to the kitchen, with the remark "We need no additional servants, but you can eat something to eat." The little girl picks up her belongings and departs. A London

solicitor named Hawks, informs Mrs. Chichester that her brother Nathaniel is dead, leaving a fortune and a peculiar will. Seats now on sale.

Mary Pickford Coming.
Mary Pickford now heads her own film producing company and is appearing as an independent star free from the limits of any programme. She will soon be seen here in the first presentation of "Less Than the Dust."

ALHAMBRA.
Winifred Kingston must be Irish by birth or inclination for surely no one but a child of the "Ould Sod" could act so charmingly—new Pallas-Paramount photoplay "A Son of Erin" at the Alhambra theatre. Tonight.

When Earle Williams, who is featured throughout "The Scarlet Runner," Vitaphone's new series which is shown at the Alhambra every Wednesday, appeared on the studio floor in the disguise which he wears in the third episode, "The Masked Ball," not one of the five hundred people standing about recognized him. A new step in the art of make-up for Earle, Alhambra, Wednesday. This week only.

On the boat were Mr. and Mrs. Karenin, wealthy Russians returning from a tour of the Continent, who had lost their only child while abroad.

During the trip to America, Mrs. Karenin becomes devoted to Pavloff's little daughter Nina. Nina has a twin sister, Olga. You will tremble with both these girls when you see them in "The Scarlet Oath," which appears at the Alhambra theatre, Wednesday and Thursday. Gail Kane lends her wonderful talent to the characterization of the two twins and will amaze you by the entire difference of the two roles she presents.

THE GRAND.
Thanksgiving Day.
Gorgeous gowns and elaborate scenes of the "bright lights" are essentially prominent in "The Border Line," Essanay photoplay, for it has to do with the mulcting of millionaires by a very clever coterie of blackmailers. Nell Craig, as "the lure," to lead the victims into the clutches of the crooks, has spent hours with her dressmakers in the selection of her beautiful costumes, and appears at her best. In the finale she falls in love with one of her victims, repudiates her accomplices and precipitates a spectacular raid by detectives on the crooks' den. "The Rogue's Pawn," an adventure of "Grant, Police Reporter," featuring George Larkin and Ollie Kirby, will also be shown.

LYRIC.
Tomorrow.
What New York papers comments on authentic war pictures. The Globe says:—If you yourself were visiting the battle fronts and were by courtesy of the general staff sent everywhere you wanted to go for a year, you could not hope to see more than a poor fraction of what the plans says, Von Hindenburg and Grand Duck Nichols two of the world's greatest strategists, battling each other with their mighty armies. The Russians second line of defense had been pierced, their last line of defense in danger, the Grand Duck is deposed and the Czar himself takes command in hopes of stemming the tide of the teuton advances. This marvelous picture will be shown at the Lyric tomorrow. Admission 10c. Don't miss it.

THE HARTMAN.
"Justice."
It is no over estimate to announce that one of the greatest plays of modern times is John Galsworthy's "Justice," which will be presented at the Hartman Theatre, Monday, Tuesday and Wednesday, Dec. 4, 5 and 6, by John Barrymore in a superb company, including O. F. Heggie and Whitford Kane, both members of the company which first presented the play in London, England, and other well known players. "Justice" was presented for the first time in this country last season, in New York, with Mr. Barrymore in the part of William Falder. Both the play and Mr. Barrymore scored a wonderful success, and won praise of the most enthusiastic sort from both the press and the public. It is being presented now in all the larger cities of the country, with the original New York cast and production. "Justice" deals with the effect of indiscriminate punishment for crimes, and imprisonment under the existing penal conditions, upon a young man who has committed but one small crime, and whose character was only weak, not vicious. The play has aroused vast interest in prison reforms wherever presented. The story is a powerful one, which has also a strong interest. The part of the one woman character in the play, Ruth Honeywill, will be filled by Bertha Mann.

Of course it was merely a lovers' quarrel. "I wish I could recall the past," she exclaimed. "The past?" he snorted. "Huh! I'd be satisfied to get my presents back."

BRITISH STEAMER SAILS FROM CHINA; HELD UP A WEEK

(Associated Press Telegram)
Amoy, China, Nov. 28.—The British steamer Glenogle sailed from this port yesterday evening. She carried no passengers.

The steamer Glenogle was held up at Amoy on Nov. 21 by the Chinese authorities as she was about to sail for Mesopotamia with a number of Chinese laborers. Germans in Amoy objected to the departure of the vessel on the ground that it was a breach of Chinese neutrality. The contracts with the laborers were also questioned and it was asserted that the ship's voyage violated the treaty between England and China.

Today's Aid to Beauty

An especially fine shampoo for this weather, one that dissolves and entirely removes all dandruff, excess oil and dirt, can easily be made at trifling expense by simply dissolving a teaspoonful of canthrox in a cup of hot water. Pour slowly on scalp and massage briskly. This creates a soothing, cooling lather. Rinsing leaves the scalp spotlessly clean, soft and pliant, while the hair takes on the glossy richness of natural color, also a fluffiness which makes it seem much heavier than it is. After a canthrox shampoo arranging the hair is a pleasure.—Advertisement.

Turkeys Find No Buyers In Markets; Prices Will Drop

(Associated Press Telegram)
Pittsburgh, Nov. 28.—Following refusal of buyers here to purchase turkeys at high prices many thousands of the fowls were still unsold today, and the quotations are likely to take another tumble during the day. Annually great quantities of birds are shipped to Pittsburgh from Ohio, West Virginia and other nearby states just before Thanksgiving and the supply this year is even larger than in the past. Shippers yesterday asked 28 to 29 cents per pound for live turkeys and only sold a few at 25 cents a pound. Some dealers here expect the prices for dressed turkeys will quickly drop from 40 cents a pound to about 35 cents.

OUR SUCCESS.
The TRUTH in advertising, and the TRUTH in selling, has been our medium of success. When we have told you that an article was good, have you ever found it to the contrary? You have not. Every employee of the STAR GROCERY STORES has been instructed to give you the full truth concerning any article you inquire about, even if in so doing, we should lose a sale. WE WANT YOUR CONFIDENCE. We sell only the best brands of merchandise, and on these articles of merit, we cut prices.

Grocery stores have opened here, cut prices on cheap grades of goods, and fooled the public for a while. When the people began to realize the truth, the stores had to meet the inevitable—failure. Stores have come, and stores have gone, but the STAR GROCERY STORES, through its policy of sticking to the truth, are growing mightier every day. Our iron-clad guarantee goes with every article sold here. We do not consider a sale complete until you have fully used up the entire article, and found it satisfactory.

TRUTH has been the foundation of our business; TRUTH has been its success, and TRUTH is your protection when you deal with us. Sincerely yours,
THE STAR GROCERY STORES.

How To Get Rid Of Catarrh, Catarrhal Deafness or Head Noises

If you have catarrh, catarrhal deafness or head noises caused by catarrh, or if phlegm drops in your throat and has caused catarrh of the stomach or bowels you will be glad to know that these distressing symptoms can be entirely overcome in many instances by the following treatment which you can easily prepare in your own home at little cost. Secure from your druggist 1 ounce of Farnim (Double Strength). This will not cost you more than 75c. Take this home and add to it 1 1/2 pint of hot water and 1 ounce of granulated sugar; stir until dissolved. Take one tablespoonful four times a day. A decided improvement is sometimes noted after the first day's treatment. Breathing becomes easy, while the distressing head noises, headache, dullness, cloudy thinking, etc. gradually disappear under the tonic action of the treatment. Loss of smell, taste, defective hearing and mucus dropping in the back of the throat are other symptoms which suggest the presence of catarrh and which are often overcome by this efficacious treatment. Nearly ninety per cent. of all ear troubles are said to be directly caused by catarrh, therefore, there must be many people whose hearing can be restored by this simple home treatment. T. J. Evans will supply you.—Advertisement.

BOWSER-SCHOBER BOUT WEDNESDAY WILL BE HUMMER

Indianapolis Grappler Holds Decision Over Pet Brown—Confident He Can Defeat Champion.

Considerable interest is being displayed by the fans in the coming wrestling show, Wednesday night at the Auditorium, when Paul Bowser, world's middleweight champion,

BILLY SCHOBER.

meets Billy Schober, of Indianapolis, the classy grappler who holds a decision over Pet Brown, the Texas marvel.

Schober contests Bowser's claim to the middleweight title because the local man has never met the former but Wednesday night, the Indianapolis mat artist will get the opportunity he has long sought.

The conqueror of Pet Brown feels confident that he will be able to dispose of Bowser in their first bout although he has only seen the champion in action once. That was on the occasion of his visit to Newark, with the "unknown" grappler. At that time, Schober told his protégé how to wrestle to prevent Paul

from securing the toe hold, but once on the mat, the "unknown" was not able to put Schober's instructions to work.

New Schober himself will tackle the champion, and perhaps he can figure the proper method to pursue to stave off defeat until he wears Bowser down. The fans who have been regular attendants of the shows know that to wear the Newark man down, Schober will have to uncork some mighty high class stuff.

Paul is working out every day with his training partner, Charles Metro and will be in great condition for the match. The sale of tickets for the theatre went on sale this morning with a rush indicating another large crowd for Wednesday night. Stage seats can be bought at the various cigar stores.

The show will begin promptly at 8:15 o'clock with an excellent curtain raiser which will be followed by a high-class semi-windup.

OHIO STATE CHAMPS FETED BY C. OF C.; TALK NEW STADIUM

The Columbus Chamber of Commerce, last night at the Columbus Elk's home, banqueted the champion Ohio State football team, and other officials of the university. The evening was one great O. S. U. celebration.

Prediction was made that a stadium seating 25,000 people was a project likely of early realization. Out of it all, was gained a clear impression that a new spirit prevails in university athletics and greater co-operation exists between the institution and the people of Columbus than ever before.

Coach "Jack" Wilce and "Chic" Harley the heroes of the past season on the gridiron, each responded to toasts. Harley's toast consumed about 10 seconds. L. F. Sater, a graduate of the university, 21 years ago, told an exciting story of the heroic feat of "Puggy" Shaw, who won a game from Denison and championship on the diamond.

Football heroes find in these disconsolate days that no man is considered really a hero who has the regulation number of arms and legs.

FOOTBALL GALORE WILL BE FEATURE OF THANKSGIVING

McDaniels Will Clash With Marion Questions—Franks' Hatters With Fitzsimmons Star Aggregation at Wehrle Park.

Newark football fans on next Thursday afternoon (Thanksgiving) at Wehrle park, will have the opportunity of seeing every one of the city's star gridirons in action, in addition to the Marion Questions team, one of the greatest football aggregations in the state.

The McDaniels will clash with the Marion Questions in the big game of the afternoon, while Frank's Hatters will battle the strong Fitzsimmons' team. Two football games, both of which will be headliners, is the program for the holiday which the fans will welcome at the real, gridiron treat of the season.

The Hatters and the Fitzsimmons team will begin their argument promptly at 1 o'clock and the McDaniels and Marion game will be started about 3 o'clock.

The first game will bring together two of Newark's lighter teams, between which there is a strong rivalry existing. Both managers have long boasted that they have the best team, so Thursday was the day decided upon to try and settle the discussion definitely. The lineup for the first game is given by the managers as follows: Fitzsimmons—John McCarty, Gilmore, Davis, Schumpf, Freiner, Hinger, Kuster, Harris, Ashley, A. Conlon, H. Conlon, McManus, A. Dennison, Dunn, Murphy, Callahan, Goodwin and Gilbert. For the Frank Hatters:—Harris, Price, G. Scott, Don Macanlsky, Dave Macanlsky, Mitchell, Dickerson, B. Kennedy, P. Conway, Cook, Altmeir, Franks, Cocanour, Cady, Selzer, Stewart, Corder, Colling and Taylor.

Both teams will be subject to changes in their lineup, but neither according to agreement will be permitted to use any players, other than those above mentioned.

The Marion Questions Sunday at Marion defeated the strong Barrack's team by the score of 3-0, which game was an example of the class of the aggregation which will oppose the Hatters in the Thanksgiving double bill. The visitors have defeated some of the best teams in the state this year and do not expect to have their record marred when they come to Newark.

Word from Marion states the Questions will bring a large crowd of rooters with them and with weather permitting, Newark will be the scene of much activity on Thursday afternoon.

SHARTLE AFTER RECRUITS FOR SIGNAL CORPS
G. W. Shartle, chief provost of the Tenth brigade O. N. G., now doing duty on the Mexican border, was in the city today in quest of 50 young men for signal corps services in the United States army.
Mr. Shartle left at noon for Greenfield, O., where he will recruit 10 men into the signal service. He was reluctant about giving his views on the Mexican situation at this time, but stated that in his opinion, the army would remain on the border indefinitely.
From Greenfield, Mr. Shartle will go to various cities in the state on government business and will return here to spend Thanksgiving. He brought to Newark a very favorable report of a Newark boy who is doing duty on the border.
Fred Bowers, better known as "Brainy," is the local boy, who according to Mr. Shartle, has cleaned up several regiments in wrestling and boxing.
"Bowers seems to have something on the boys," he said, "because none of the men in three regiments have been able to defeat him at either wrestling or boxing." He is strong and a willing mixer when boxing, which has registered several K. O.'s in his favor.
Fred Howarth, Newark's clever light heavyweight boxer was responsible for Bowers' first boxing lesson, while Paul Bowers, world's middleweight wrestling champion, taught him the fundamentals of the mat game.

TAXI DRIVER IS THROWN FROM CAR; ESCAPES INJURY

Samuel Davis, driver for the Charles Martin taxi line, early this morning suffered a number of bruises and cuts about the face, when he was thrown through one of the windows in his machine, while endeavoring to prevent being struck by an Ohio Electric freight car.

The accident occurred at Maholm and Pine streets. According to Davis, he was driving east on Maholm street and was approaching the Pine street intersection. He claims he did not hear a bell nor whistle to warn him of the car's approach as he neared the street.

The machine and the car met at the corner and Davis in an effort to avoid striking the car, swung his machine abruptly to one side. The next he remembers of he was lying in a yard in Pine street. The taxi in its sudden lurch to obey the command of its driver, threw Davis through one of the glass doors in the front of the machine, badly cutting his face and inflicting a number of bruises.

The lad was able, however, to drive the machine to the stand on the square where he left it and went to his home. His injuries are not thought to be serious.

Poultry Asso. Gets Indorsement of the Chamber Commerce

The Agricultural Bureau of the Chamber of Commerce at a meeting last night with a special committee from the Newark Fanciers' Association, indorsed the coming poultry show to be held January 2-6 inclusive and decided to co-operate in making it a success. The delegation from the Fanciers' Association, who met with the Agricultural bureau were C. W. Kent, W. E. Warrington, L. V. Billman, Cary Montgomery, J. E. Evans.

Chairman Homer C. Price of the Agricultural bureau stated that the Chamber of Commerce was heartily in accord with the objects of the Fanciers' Association, and that because of the high cost of living it was all the more necessary that stimulus be given the poultry business and the people in town as well as the country be encouraged to raise poultry and increase the production of eggs which daily are soaring to prohibitive figures.

He named Byron Zwayer, B. M. East and L. M. Krieg as a special committee from the bureau to meet with the Fanciers' Association, Tuesday night, December 5th, when the final plans for the show will be completed.

At last year's exhibition 350 birds were entered and the association is working to double the number of entries this year and make it one of the best shows in the state. A special feature of interest is that the Black Minorca club of Ohio has offered to hold its state meeting in conjunction with the Newark show and this will bring from 75 to 125 of the choicest specimens of this type as entries. Charles E. Cram of Cary, O., editor of the Poultry Record, will again judge the entries and will use the comparison method of scoring as provided by the American Poultry Association.

Although Licking county is one of the biggest and most productive agricultural counties of the state, it has been very lax in the promotion of the poultry industry. It is the purpose of the association and the agricultural bureau of the Chamber to arouse greater interest in this feature of the food supply. Appeals will be made to the Granges to make entries and special prizes be provided for that class.

The Licking County Fish and Game Protective Association has been asked to co-operate in obtaining from the Fish and Game Commission of Ohio an entire exhibit of pheasants, wild turkeys, wild geese, and quail, also fish and game. This exhibit, alone is a rare and novel show in itself. In order to make the show self-supporting, it is necessary to provide for more than \$150 of expenses and an admission of 10 cents will be charged.

R. & O. MEN HOLD TRAP SHOOTING CLUBS WILL BE FORMED.

Pursuing its activities for the promotion of athletics among officials and employees under the direction of a Welfare Bureau, the Baltimore & Ohio Railroad is organizing trap-shooting clubs at principal terminals points on its lines.

At the company's headquarters, Baltimore, Md., officials have joined the ranks of the marksmen and hold weekly meetings at Halthorpe, Md., where a suitable clubhouse has been fitted up. The New York division men have also organized a club for the winter months and it is probable that an inter-city contest will be arranged soon for highest honors.

It is the aim of the management to encourage the organizing of clubs at other points along the system and teams representing the various localities will hold competitive meets later on for the championship of the railroad, similar to the organization of baseball leagues last summer.
